

THE FABULOUS LABORATORY OF DR. GOLDEINSTEIN

To run "Doctor Goldeinstein" you need:

1. Download and install Python www.python.org
2. Download and install Pygame www.pygame.org
3. In windows, go to **My Computer / System / Advanced Settings / Variables:**
 - 3.1. In **System Variables** (second box) select and edit **"Path"**
 - 3.2. In **Variable Value** write **;**C:\Python27**** in the end of line

Obs.: "Python27" is your Python directory
4. Run **main.pyc** in Doctor Goldeinstein folder.
5. Enjoy =)
